

Purpose

In Marts 2019, a business conference focusing on health tech and pharma medical will be held in Shangyu outside Shanghai. Nordicflexhouse have many years of strategic partnership with the Shangyu government and the Zhejiang province. The conference will provide the opportunity for Nordic health tech and pharma medical companies to meet the Chinese health tech and pharma medical companies for business collaboration. An incubation fund of more than 5 billion RMB has been made available for Nordic-China business collaboration.

The Nordic companies and Chinese companies will have the match making meetings and share market insights for both Nordic market and Chinese market, to find out the business collaboration opportunities between the companies. The collaboration between Chinese and Nordic companies and organizations could be product collaboration, R&D collaboration, marketing collaboration, etc.

The Conference will focus on these areas:

Medical technologies: medical technologies are the technologies related to the medical instrument R&D, medical product manufacturing.

Pharma and bio-technologies: Pharma and Bio-technologies are related to Pharma medicine production, Pharma medicine R&D, Bio-technology R&D, Bio-technology product manufacturing.

Smart health care technologies: Smart health care technology R&D, Smart health care technology product manufacturing.

Time and location

14th – 15th of Marts 2019 a 2 day program.

The conference will takes place in Shangyu – 1 hour from Shanghai.

A bus will drive the Nordic delegation to Shangyu and also back to Shanghai.

Target group

Main target group are companies from Nordic and China for business collaboration.

Before the conference the Nordic participants will be informed about China participants, so it will be possible to arrange meetings at the match making event day 2 at the conference.
